DETAILED ACTION

Allowable Subject Matter

1. Claims 6, 11-12 and 14-19 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 6, 11-12 and 14-19 are allowed because the prior art of record neither anticipated nor rendered obvious that a liquid crystal display device comprises various elements with the specific features recited in the claims 6 and 14:

a hinge mechanism attached to a attaching section of a frame for changing an angle of a display surface of the liquid crystal panel, the hinge mechanism including a supporting member and a connecting member rotatably supported by the supporting member by a hinge shaft, the connecting member being connected to the attaching section, wherein the attaching section is a substantially flat plate section that extends outward from a central portion of one side of the frame perimeter in a direction substantially parallel to a plane of the display surface as shown in Fig.15 , and the attaching section is looking perpendicular to the display surface and located off a rear surface section of the frame outside of a rear boundary of the frame thickness as shown in Figs.18-19.

Applicant's arguments filed on Dec.21, 2006 are persuasive, and the prior art of record do not teach such supporting frame having such hinge mechanism to support the liquid crystal panel, especially, the attaching section is a substantially flat plate section that extends outward from a central portion of one side of the frame perimeter in a direction substantially parallel to a plane of the display surface as claimed.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
